01 ABOUT IRONARCH TECHNOLOGY

A mission-focused federal modernization partner

IronArch Technology is a Service-Disabled, Veteran-Owned Small Business (SDVOSB) digital services and modernization partner to the federal government, delivering mission-critical solutions across cloud modernization, agile full-stack development, user-centered design, AI/automation, and professional IT services.

As a trusted provider supporting the Department of War (DoW), the Department of Veterans Affairs (VA), and federal health and civilian agencies, IronArch combines technical excellence with a human-centered approach to help agencies modernize securely and efficiently—with a relentless focus on the mission.

02 OUR SERVICES

Capabilities available on NASA SEWP VI

Digital Services

- Full-Stack Application Development
- Agile Program and Product Management
- Cybersecurity and DevSecOps
- Artificial Intelligence, Machine Learning, and Intelligent Automation
- Data Engineering, Analytics, and Visualizations
- Human-Centered Design

IT & Professional Services

- Technical Support and Platform Engineering
- IT Modernization and Enterprise Architecture
- Cloud Modernization
- ServiceNow Configuration
- Cybersecurity and DevSecOps

03 THE CONTRACT VEHICLE

About the NASA SEWP VI GWAC

IronArch Technology is a **Category C awardee** on the NASA Solutions for Enterprise-Wide Procurement (SEWP) VI, part of a multi-award Government-Wide Acquisition Contract (GWAC) and one of the federal government's premier acquisition vehicles for information technology products and services.

SEWP VI provides federal agencies with a streamlined, flexible procurement pathway to acquire innovative technology solutions that support mission-critical operations. Through this vehicle, IronArch will continue delivering secure, scalable, and mission-focused solutions that help agencies modernize systems, strengthen cybersecurity, improve digital services, and achieve operational excellence.

A premier multi-award GWAC for IT products and services across the federal government. sewp.nasa.gov/sewpvi

04 TERMS

Fair Opportunity Clause

Contractors will be provided a fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools. No documentation for the order selection is required to be submitted with the order. All such documentation is to be maintained by the issuing procurement office.

The Contractor shall not market, quote or otherwise offer for sale, any IT Solutions not listed under this contract, until the said solutions are included in the SEWP database of record, and available to all Government end-users.

If the Government issues a Request For Information (RFI) as part of market research, the Contractor may provide items not yet listed on their SEWP contract as part of a market research quote if:

1. all such items are clearly marked as not yet available on their SEWP contract; and
2. the contractor submits a technology refreshment request to add those products to their contract.

If the Government issues a Request For Quote (RFQ) or a Market Research Request (MRR), the Contractor may only respond with items available on their Contract and the price of each item shall be no greater than the price in Attachment F SEWP database of record at the time the quote is issued. If the Contractor has insufficient items on their contract to fully respond to the Formal RFQ, the Contractor must respond with a No Bid.

Unless the RFQ specifically allows for partial quotes, the Contractor must respond fully to all requirements specified in the RFQ.

When submitting a quote to a government end-user, the contractor must clearly state the length of time the quote is valid. The contractor shall honor any order submitted within the stated time period of a quote.

When responding to an RFI or RFQ issued from the NASA SEWP RFQ on-line quoting system, the Contractor must respond as outlined in Attachment C: Contract Holder User Manual (CHUM).

Contract Holders are prohibited from using Government information posted on the NASA SEWP Contract Holder Only Page, such as RFQs, RFIs, etc., for purposes other than proposing on SEWP requirements. This includes Contract Holders providing third parties with SEWP information and requirements for the purpose of assisting companies, that are not SEWP Contract Holders, with providing unsolicited proposals to meet agency requirements already posted to the NASA SEWP RFQ on-line quoting system.

05 ONLINE PROGRAM SUPPORT

How to work with us on SEWP VI

Reach the right team for quotes, policy questions, and order support.

How to Obtain a Quote

Request quotes for hardware, software, or services available under our SEWP VI contract, including responses to RFIs and RFQs.

06 WHY NASA SEWP VI

Who should reach out to us

As demand for modern, secure, data-driven government services grows, SEWP VI is a key vehicle for agencies seeking trusted partners who deliver quickly and efficiently.

Federal Agencies

Defense, veteran-focused, and health-IT agencies modernizing mission systems benefit from IronArch's deep experience in:

- Building human-centered digital services that just work for the people who use them
- DevSecOps and secure-by-design delivery
- Data integration, analytics, and automation that turns system sprawl into mission flow
- Cloud modernization/migration and platform engineering that drives smarter, faster mission execution

Companies Needing an SDVOSB Prime for Teaming

Teams without a SEWP VI award—or holding it in other categories—should reach out when they:

- Need a strong SDVOSB prime to pursue mission-critical task orders
- Require a partner with delivery maturity and digital modernization capability
- Want to target VA, DoW, or civilian agencies where IronArch has differentiated strengths
